SUNSENSE 'WATERING CAN'

WHAT YOU'LL NEED

- SunSense spray bottle
- Masking tape
- Chalkboard paint
- Paint brush
- Pack of chalk

INSTRUCTIONS

1. Remove labels from product.
2. Thoroughly wash your SunSense spray bottle with water and soap once empty.
3. Use masking tape to outline a horizontal rectangle on the centre of the planter.
4. Paint over the outlined rectangle with Chalkboard paint. (You can also use a label sticker if you don't have chalkboard paint)
5. Let this dry, remove the tape and then draw your label on with the chalk.
6. Fill the bottle with tap water and use to keep your QV Pot Planter Herb Garden hydrated!

Ego considers the safety of children a top priority. Adult supervision and assistance is required for any of the listed arts and crafts projects. Observe children closely and intervene as necessary to ensure safe and successful experiences.
