## QV POT PLANTER HANGING GARDEN

### WHAT YOU'LL NEED

- 3 x QV Cream pump pack (or as many as you have)
- Paint of your choice (optional)
- Sand Paper
- Scissors
- Various plants/flowers of your choice
- Hemp Rope

### INSTRUCTIONS

1. Remove label from product/s.
2. Cut the top of the container/s off, so the pump section is removed (refer to image).
3. Clean out the container/s with water and dry.
4. Sand the edges to smooth out any sharp or rough spots.
5. Remove the bottom blue end of the bottle, and using the scissors, carefully poke 4 small holes in the cone, to allow for water drainage.
6. Paint the container to your preference, and leave to dry (optional).
7. Pierce two holes on each side of the bottle at the same height, and thread the rope through it. Tie this off at the top.
8. Re-connect the painted end to the planter pot.
9. Plant your flowers and watch them grow!

Ego considers the safety of children a top priority. Adult supervision and assistance is required for any of the listed arts and crafts projects. Observe children closely and intervene as necessary to ensure safe and successful experiences.
